

Eurisy 20111213-927

Paris, 13 December 2011

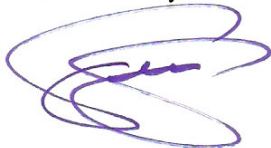

MAESTRA
Ul. Dzieciola 9d
04-988 Warsaw
Poland

Dear Sir,

On 23 November this year, Eurisy organised a conference in Warsaw at the Copernicus Science Centre on "Growth and competitiveness using satellite applications – practical approaches for non-space SMEs". Maestra supplied the simultaneous interpretation English/Polish at this conference.

I would like here to express our satisfaction of your service. The very high quality of the interpretation, not only during presentations but also during the round table discussion, contributed towards the success of the conference.

Yours sincerely

Stefaan de Mey
Secretary General
